

Wide Tower

Wide Tower

This planter makes an excellent divider to bring privacy to large spaces, and accommodates plants with deeper roots.

Designed for durability and performance, our custom planters for commercial and residential projects are made from heavy-gauge, marine grade, recycled 5052 Aluminum Alloy that is also used for boat and ship building.

Finishes

Complete with a five year warranty, our standard and premium powder coat finishes withstand the most extreme conditions. Download or request a powder coat spec sheet for a complete list of available colors.

Our weathering steel is built to last and produces a finish that is both beautiful and extremely long lasting.

Features

This hand crafted planter features a customizable weather resistant finish. A robust top lip adds strength to the planter wall, producing an incredibly durable product. Though drainage is available, this planter is watertight and is commonly used for indoor applications.
