

Backdrop

Backdrop

A fresh approach to a trellis privacy screen. Simplistic in form, considered in design.

Backdrop is available in several planter and screen sizes. Please see the following page for a list of available configurations. Privacy is sought after. We don't want walls to divide us, we want to feel open, surrounded by the thing we all long for, nature. Backdrop is simply that. A way to display nature, while offering a feeling of privacy.

- Constructed of marine grade aluminum or corten steel
- Inclusive design means no assembly required
- Works as a stand alone piece or in groups and clusters
- Choose from a catalog of trellis patterns
